Doctoral Workshop on Quantitative Dynamic Economics

October 5-6, 2023
University of Strasbourg

Call for Papers

We are pleased to invite submissions for the sixth Doctoral Workshop on Quantitative Dynamic Economics which takes place in Strasbourg, France, October 5-6, 2023. The aim of the workshop is to offer a stimulating environment where PhD students and young researchers can exchange ideas about their work with experienced researchers. We are particularly interested in submissions by **doctoral students entering the academic job market in 2023/24**. We welcome contributions from all areas of dynamic economics. Topics of interest include in particular

- Monetary and fiscal policy
- Income and wealth inequality
- Labor market dynamics
- Financial markets and macroeconomics

Please submit papers in pdf format to Samuel Ligonnière (ligonniere@unistra.fr). The submission deadline is June 1, 2023. Authors will be notified about acceptance by July, 1, 2023. Local expenditures (meals and accommodation) for all participants will be funded.

Organizers
